PRESBYTERIAN GUIDANCE CENTER

AIM

The aim of the college is to train and educate men and women for Christian life and service by bringing them to physical, mental, emotional, social, and spiritual maturity, and thus preparing them for useful vocations and successful living in the home, the church, the school, and the world.

ACADEMIC STANDING

Flora Macdonald College is a member of the Southern Association of Colleges and Secondary Schools, and is recognized as a standard A-grade institution by the North Carolina State Department of Public Instruction.

The college is an Institutional Member of the National Association of Schools of Music and is accredited by that Association for the following degrees:

Bachelor of Music in Applied Music; Church Music

Bachelor of Arts with a major in Applied Music.

Bachelor of Music Education

The college is also a member of the North Carolina College Conference, Southern Association of Colleges for Women, Presbyterian Education Association of the South, and the Association of American Colleges.

Flora Macdonald College

HISTORICAL SKETCH

Flora Macdonald College was founded in the year 1896 by Fayetteville Presbytery under the name of Red Springs Seminary. The career of the college has been as colorful as the Scottish heroine whose name it bears. Proud of its heritage, grateful for its traditions, the college has lived by and for her ideals.

While the year 1896 marks the date of its charter from which it has had continuous operation, Flora Macdonald College rightly claims the honor of being the natural successor to Floral College which flourished in a nearby location from 1841 to 1878. The Scottish Highlanders who emigrated to America and settled in the Cape Fear River area of North Carolina were men and women with deep faith in God and high regard for sound learning. It is, therefore, not surprising that they, as well as their descendants, built churches and erected schools. Ingrained in the soul of every Scotsman is a love for religion and education. The establishment of Floral College was an expression of this two-fold passion. Loving their lassies no less than their laddies, they sought to provide for their daughters equal advantages to those enjoyed by their sons. The high standing of Floral College is evidenced by the fact that it was the first school in North Carolina to grant diplomas to women.

Like numerous other institutions in the Southland, Floral College was closed during the Civil War but opened again in 1866 and continued until 1878 when it became one of the casualties of the period of reconstruction. During the Mid-Nineteenth Century, Floral College exerted a wide and marked influence upon the culture of eastern Carolina. The closing of the college left a great unmet need. Hundreds of the very choicest young women living on the Eastern seaboard needed a college which they could attend without the cost and inconvenience of traveling to distant institutions.

One of the leaders in the effort to meet this need was Reverend H. G. Hill, D.D., pastor of the nearby Maxton and Centre Presbyterian Churches. Others caught his vision to re-build a college in the vicinity where Floral College had once stood. In 1896 Fayetteville Presbytery, by formal action, authorized the establishment of a Seminary for Women "somewhere in Robeson County or neighboring counties". A committee was appointed to select a location and launch the school. Most naturally a strong sentiment favored the old site of Floral College, but after considering the various offers, the committee selected Red Springs, which they found to be well located and long a center of religious and social activities. To bring the college to Red Springs, the college was offered a plot of four acres, four thousand dollars in cash and a promise of forty students. The gift of land was a donation from Dr. Luther MacMillan, who with Reverend S. M. Rankin was most active in the movement to re-establish a college.

While the college came into existence through the efforts of Fayetteville Presbytery, interest in its establishment and development was widespread, and in a brief time, both Orange and Wilmington Presbyteries joined in its ownership and control.

The first president, Reverend Charles G. Vardell, D.D., came to the college, a vigorous and energetic young minister, and building upon firm foundations, he erected an institution which has glorified God and exalted womanhood. In the face of obstacles which would have broken the heart and spirit of a man with less heroism and faith, he built soundly and well. Under his inspiring leadership and imbued with his spirit, the college gained rapidly in prestige and popularity.

Associated with Dr. Vardell was his gifted and consecrated wife, Mrs. Vardell, nee Linda Lee Rumble, a talented and finely trained musician, whose work in the department of music won such wide recognition in the entire South that

the name of the college was changed in 1903 to the Southern Presbyterian College and Conservatory of Music.

The college flourished. The original frame building was replaced by brick structures until seven units were completed. A curriculum in keeping with rising educational standards was developed, a strong faculty was selected and oriented, the facilities of the college were increased and improved, the campus and gardens beautified until the college attracted students from many states and foreign countries.

A meeting of the Scottish Society of America, held in Fayetteville in 1914, was attended by Dr. James A. Macdonald, the internationally known editor of the *Toronto Globe*. In his happy association with the many Scottish people he found living in this vicinity, his imagination was kindled. He was also greatly impressed by the quality of work being done at the college in Red Springs. He saw in the young and vigorous college an opportunity for preserving the rich and age-long traditions of Scotland. He proposed a new name for the college, a name long treasured in the heart of every true Scotsman, the name of Flora Macdonald, a Scottish heroine who lived for five years in this section of North Carolina. The proposal was also made by Dr. Macdonald that the Scottish people in America raise a large endowment and thus, by bringing the college to the highest rank, make it a living memorial to the illustrious name and glowing deeds of Flora Macdonald. Under the inspiration of its new name and with the impetus brought by the support of an enlarged circle of friends and patrons, the college made significant gains, increasing its endowment and lifting its educational standard.

In 1930, after thirty-four years of toil and sacrifice, years which had witnessed the fruition of his dreams and prayers, Dr. Vardell resigned, becoming President-Emeritus. He was succeeded by Reverend Henry G. Bedinger, D.D., who for eighteen years served the college with a fidelity and devotion which has left a lasting impact upon the life of the

college. He brought the college successfully through the depression and war years, leaving it at the end of his period of service with an enlarged student body, a greatly strengthened faculty, the physical property improved, and the endowment and scholarship funds substantially increased.

Upon Dr. Bedinger's resignation in October 1948 to return to the pastorate, the Administrative responsibilities fell upon Mr. Halbert McNair Jones, Acting President, who was assisted by Mr. William G. Coxhead, Acting Vice-President. Mr. Jones, a prominent businessman and active Christian layman of Laurinburg, was also chairman of the Board of Trustees. He and Mr. Edwin Morgan, who had preceded him as chairman of the Board, served the college with distinction for many years, bringing the college through each crisis to greater strength and stability. It was, however, during the interim between presidents that the vigorous leadership of Mr. Jones and the sound counsel of Mr. Morgan were most signally blessed for the good of Flora Macdonald College. During the period, instead of marking time or retreating, the college made definite forward progress.

Dr. Marshall Scott Woodson was selected by the Board as the third president and began his work in January 1950. A Presbyterian minister with a wide experience as the pastor of important churches, as well as a successful Navy Chaplain in World War II, he has displayed fine ability in directing the affairs of the college. The college is making excellent progress and looks forward with confidence to a period of unparalleled growth and expansion. Associated with him in the task of building a great Flora Macdonald is a staff of college administrators of proven experience and ability. In Dr. Price H. Gwynn, Jr., Dean of the College, Dr. Charles G. Vardell, Jr., Dean of the Conservatory, and Mr. Rodger W. Decker, Administrative Dean—Admissions and Registrar, the college has an administrative team which is unsurpassed. Flora Macdonald College, famous through the years for its unique spiritual atmosphere and for the quality of its students is winning wide recognition

for the high quality of its academic work, as well as for the excellency of the training given in the Conservatory.

Flora Macdonald College is now facing its finest days. Under a grant of \$50,000 from the Ford Foundation, and with the aid and counsel of a group of the leading educators of America, a thoroughgoing study has been made of all the institutions of higher education controlled by the Presbyterian Church in North Carolina. The study was carried out under the guidance of a Commission of thirty leading ministers and lay people. Recommendations based upon this study were approved by the Commission and later adopted by the Synod of North Carolina at a historic meeting in July, 1955, by unanimous action. The official action of the Synod was to "establish in the eastern section of the state a four-year, coeducational college through the merger and consolidation of Flora Macdonald College, Peace College and Presbyterian Junior College".

The merger of the three colleges is now a legal reality, and each one is a Division of the Consolidated Presbyterian College. The charter for the new institution was properly filed with the Secretary of State in Raleigh, N. C., on May 28, 1958. The Board of Trustees elected by the Synod of North Carolina has purchased a site for campus just south of Laurinburg. Some five million dollars has been pledged for development of landscape and construction of buildings. Plans already submitted by the architects call for a lake as the focal point of the campus—the academic buildings on one bank with the dormitories, dining and recreational facilities on the other. A causeway will connect the two with a chapel in the center. Final sketches and specifications have been approved and construction of buildings is under way.

In the summer of 1957 the Ford Foundation made a grant of \$15,000 to the Consolidated College for a special curriculum study, which was undertaken at Chapel Hill. Under the guidance of a panel of six distinguished educators and with the help of some twenty expert consultants, a program

of academic courses was outlined for the College, which has created much interest across the country and produced favorable comment in many quarters. Price H. Gwynn, Jr., has been elected Dean, and he has committees at work spelling out details of this program.

The present deadline for opening the Consolidated College on the Laurinburg campus is the fall of 1961. Meanwhile, Flora Macdonald, as an integral part of the new institution, will furnish much of the thought and the personnel required to make this great venture in Christian Higher Education a splendid success. Students entering now will have no difficulty in graduating from the Consolidated College, provided they meet the requirements of the present catalogue. We expect to carry over and strengthen the hallowed traditions of the past, which have given Flora Macdonald College its distinctive reputation.

GENERAL INFORMATION

LOCATION

Flora Macdonald College is located in Red Springs, Robeson County, North Carolina, a town twenty-five miles from Fayetteville, where direct railway connection is made with all points North and South. Red Springs, so called from the red sulphur water of its famous springs, is in the long-leaf pine section of the State, and the climate is the same as that of the well-known resorts of Southern Pines and Pinehurst, about thirty-five miles distant. The town is composed of people who have gathered together largely on account of the social and intellectual advantages offered by the College and who desire a thorough education for their children. It is an exceptionally clean town, both physically and morally.

CLIMATE-HEALTH

The location of the College, in a climate that knows no excess of heat or cold and where there is free access to the mineral springs long celebrated for their medicinal properties, largely accounts for the remarkable health record of the school.

PHYSICAL CARE AND MEDICAL ATTENDANCE

The physical welfare of the student is made a prime object of attention. An Infirmary with private bath, hospital beds and every convenience for the care of the sick is under the constant supervision of a graduate nurse. A physician of training and experience visits the College and exercises general oversight of health and sanitation.

A physical examination of each student is made by the college physician, with a view to correcting physical weakness or defect. The institution has a trained director of physical education.

Parents need not infer that their daughters are seriously ill when sent to the infirmary, as they are required to remain there when not well enough to attend classes. In case of serious illness the parents will be notified promptly. If a special nurse is required, the student will pay for this nurse. Patrons must pay for prescriptions and consultations.

Parents are requested to have their daughter's eyes and teeth examined before sending her to school. This is important, and much valuable time may be saved by so doing.

All students are required to furnish evidence of vaccination whose potency includes the year of matriculation.

There is available to all students a group (health) and accident insurance policy effective for twelve months beginning September 1 of each year at a cost of \$20 a year which the college merely collects for the insurance company, which writes the policy. For details please refer to a descriptive brochure published by the insurance company and available on request from the Bursar of the college. There is also available a separate accident policy from the same company which costs \$7.00.

RECREATIONAL FACILITIES

Gymnasium, tennis courts, basketball courts, volleyball courts, badminton courts, soccer, and baseball fields, archery ranges, horse shoe courts, shuffle board court, table tennis tables, bowling alleys, outdoor swimming pool.

BUILDINGS

The college plant consists of eight buildings, six of which are constructed in proximity to form one large brick building. A description of each with date of construction follows:

ADMINISTRATION HALL (1906) contains Parlors, Society Halls, Chemical Laboratory, Lecture Rooms, Home Economics Laboratories, and Christian Association Library and Reading Room.

EAST (1902) AND WEST (1905) HALLS contain twelve classrooms and sixty-five bedrooms. Each bedroom is equip-

ped with a lavatory and two closets, and is furnished with twin beds, a dresser, table and chairs. Bathrooms are connected with the dormitories.

MORGAN HALL (1904), which was the gift of the late Mr. Mark Morgan, of Scotland County, contains a spacious dining-room, a serving room and dish pantry, a fireproof kitchen, and forty bedrooms similar to those in East and West Halls. The second and third floors have been completely renovated with new plastering and hardwood floors.

VARDELL HALL (1910) contains the Library, office of the President, Dean of the College, Secretary, Business Manager, and Book Room on the first floor, and forty-two bedrooms on the upper floors.

THE LIBRARY is conveniently located and well equipped. It maintains a well-rounded collection of over 20,000 volumes, and more than 100 periodicals are taken regularly. A unique feature is the Scottish collection of history, biography and literature, the nucleus of which was presented to the college by Col. Walter Scott of New York City.

CONSERVATORY HALL (1900). The first floor contains studios and practice rooms. On the second floor is the auditorium in which religious services and all public exercises are held.

PRAYER CHAPEL (1955). A dignified Prayer Chapel in Vardell Court adds to the spiritual life of the college.

LAUNDRY AND BOILER ROOM BUILDING (1909) houses the college laundry and heating plant.

THE GYMNASIUM (1938) is a frame building with a hardwood floor. It is equipped for indoor exercises and games.

J. KENNEDY TOD ART COLLECTION. Between thirty and forty works by artists of note were given by the late Mr. J. Kennedy Tod of Old Greenwich, Conn. Some of the artists represented are: Picknell, Julian Rix, Ben Foster, Bridgeman, Moran, Charles Melville Dewey, Piltz, and Roche.

The college employs a night watchman who makes an inspection of the buildings and grounds once every hour during the night.

THE GUIDANCE CENTER (1956). A frame building, remodeled in 1956, houses the offices of the Director of Guidance and Counseling and related departments.

HOME MANAGEMENT HOUSE. A frame building, remodeled in 1955, houses faculty apartments and practice house for Home Economics.

RELIGIOUS LIFE

The College, being distinctly Christian, considers the development of Christian character its chief aim. The Faculty is selected not only for scholarship, but especially for sympathetic coöperation in carrying out this purpose.

The Bible is one of the textbooks, and all students take two years of Bible. Chapel is held regularly.

The churches in Red Springs are: Presbyterian, Methodist, Baptist, and Episcopal. Students are required to attend church each Sunday, and usually attend the churches of their own denominations. Students are encouraged to attend Sunday School and young people's vesper services in the local churches.

The Flora Macdonald Christian Association is an important factor in the spiritual development of the students. The Association organizes Prayer Bands each year on each dormitory hall. These meet under the direction of elected Prayer Band leaders. The Association emphasizes and encourages also the devotional study of the Bible, an intelligent study of missions, systematic giving, and social service. Contributions are made to the causes of the Church, and to other religious and secular objects. The Association conducts vespers one evening a week. Watkins Hall is the headquarters of the Association, where it has its own library, enlarged each year by contributions from students.

SOCIAL LIFE

The Social Committee of the Flora Macdonald College Faculty, together with the Social Committee of the various organizations and clubs such as the Christian Association, the Student Council, the Zetesian and Epsilon Chi Societies and others, plan and carry out a program which allows each girl to participate in social functions and to recognize the claims and obligations of social life. This program includes a variety of activities such as concerts, lectures, receptions, teas, formal and informal dances, and banquets.

HONORS

Flora Macdonald College has an Honor Society to which a very small percentage of seniors and juniors are elected each year.

At the end of each semester the names of students making the honor roll (an average between 95 and 100), and those making the Dean's list (an average between 90 and 94), are published.

Honors are awarded at commencement to those students who have achieved the highest scholastic standing in the senior class.

COLLEGE MAGAZINE

The *Pine and Thistle*, published quarterly, is designed to give pleasure and opportunity for creative writing on the part of the students.

COLLEGE PAPER

The Skirl is published regularly during the year giving excellent training in the field of journalism and advertising, as well as in the use of correct English.

LECTURE AND RECITAL COURSE

A course of excellent lectures, concerts and readings is offered at a small cost to the students. The fee is included

in the regular expenses, and a season ticket is issued after registration.

FLORA MACDONALD STUDENT GOVERNMENT ASSOCIATION

As soon as a young woman enters Flora Macdonald College she automatically becomes a member of the Student Government Association. The object of this Association is to regulate all matters of the student community which do not fall under the immediate jurisdiction of the faculty. The Student Government Association is governed by the Student Council in coöperation with the executive committee of the faculty and is under the supervision of the Dean of Students. The Student Council is elected at the end of the third quarter each year by the student body, with the approval of the executive committee of the faculty. The purpose of the Council is to promote a joyous and wholehearted conformity to the ideals, aims and standards of the college by every student and to provide in the daily life of Flora Macdonald intellectual stimulation and social recreation. Every effort is made to give each student the opportunity to participate in the government and social life of the college. The task of the Student Government Association, through its leaders, is to help to develop an ideal college spirit in accordance with which each student governs herself, is considerate of the welfare of her fellow students, and is loyal to her college. The hope is that through the life here in a Christian community, the morale and strength of the nation will be helped through faith in the democratic way of life.

MISCELLANEOUS FEES

REGISTRATION FEE. A registration fee of \$10.00 must accompany each application. Any preference in rooms will be given in the order of application. This fee is not returnable.

ROOM RESERVATION. To reserve a room, an advance payment of \$25.00 is required by July first. This will be applied to the expenses of the first semester and is not returnable.

NOTIFICATION OF OPENING DATE. Ten days or two weeks before the opening of school, each student is reminded by letter of the opening date.

STUDENT ACTIVITY FEE. There are certain expenses, not included in the college charges, which are established by the students among themselves. These constitute a Student Activity Fund, amounting to \$18.00 a year. This amount includes membership in the Student Association, Athletic Association, Flora Macdonald Christian Association, Literary Societies, and subscriptions to the "Pine and Thistle", "Skirl", and "White Heather".

BREAKAGE CHARGES. A deposit of \$5.00 is required of all students in Bacteriology and Chemistry to cover breakage or loss.

LABORATORY FEES. Fees for courses in Art, Biology, Chemistry, Home Economics, Business, and Education are listed under the respective departments.

GYMNASTIC OUTFIT. The regulation gymnasium outfit, which includes socks, shoes, and two washable suits, may be secured at the college for approximately \$14.00. Only one outfit is needed for the entire four years.

PAYMENT OF FEES. Fees for the first half-semester must be paid upon matriculation of student. No student will be enrolled until the payments required for entrance are made.

PROMPT PAYMENT OF BILLS. Students are not admitted to classes at any half-semester period until the bills are paid, unless by special agreement. Checks should be made payable to Flora Macdonald College and mailed to the Bursar.

SPECIAL COURSE PERMITS. A special permit is issued to students for each course taken in Applied Music, Student Teaching, Typing, and Office Practice. In case a student drops a course, this permit must be returned to the Bursar's office.

SEMESTERS. Two semesters, ending in January and June constitute the college year. No student will be received for less than the entire year, except by special arrangement. The matriculation of any student will be considered as a contract on the part of the parents or guardian (who will be responsible for the payment of all bills) for the entire year.

SELF HELP. In recent years the cost of attending colleges and universities has risen considerably and with it there has been an increased need for financial aid. To meet this need, Flora Macdonald College has broadened its financial aid program so that scholarship grants, loans, and employment all play an important part. Once the financial assistance required by a student has been determined, a portion of the aid may be an outright grant in the form of a scholarship, a portion may be in the form of a loan, and some may be secured through earnings of the student at the college. By working two hours per day, a student can earn \$150 of a year's expenses. Such work is performed in the dining room, laundry, in college offices, or in other ways.

All correspondence regarding self-help should be addressed to the Registrar.

REDUCTION FOR MINISTERS' DAUGHTERS. A reduction in tuition of \$100.00 a year is granted Ministers' daughters.

BOOKS, MUSIC, STATIONERY. Students' supplies may be obtained at the College Book Store for cash.

LAUNDRY. Laundry work is done by the college laundry for which a flat charge of \$10.00 is made at each of the four payment periods. Students are allowed the privilege of sending 18 pieces each week. Of this total weekly allowance, there may be 2 dresses and 2 blouses or this equivalent. All excess laundry will be charged for at regular laundry rates.

INFIRMARY. The regular infirmary fee covers ordinary treatment and care but does not include cost of prescriptions or consultation fees by other than the College Physician. A registered nurse is in charge at all times. Should the student require a special nurse, she pays for this service. In case of serious illness, the parents will be notified promptly.

DIPLOMA FEE. A fee of \$5.00 is charged for a diploma. All fees must be paid before a diploma is awarded or before a transcript of college credits is sent out.

COST OF TRANSCRIPT. The college will furnish one transcript of a student's record free of charge. For additional copies there is a fee of \$1.00.

HOLIDAYS. During Thanksgiving, Christmas, and Spring Vacation holidays the dining room and dormitories of the college will be closed, but suitable quarters will be provided at minimum cost for students who remain.

DEDUCTIONS AND REFUNDS. No refunds of any nature are made because of the withdrawal of a student.

The policy at Flora Macdonald College has been to make the charge as low as can be consistently maintained in keeping with a high quality of instruction. However, the college reserves the right to increase rates at the beginning of any semester, if an unexpected rise in the general cost of living should justify the change.

PENALTY FOR LATE REGISTRATION. Students who enter college after the beginning of any semester will be charged a fee of \$3.00.

THE WHITE CHAIR OF BIOLOGY. Endowed by J. Harvey White, William Elliot White, and Mrs. Mary White Carlton, in honor of their parents, James Wilson and Emma Holt White.

LOAN FUNDS

LOAN FUNDS. The Masonic Loan Fund, The John F. McNair Loan Fund, The James L. McNair Loan Fund, The Andrew Bryson Loan Fund, The John Robert Sloan Memorial Loan Fund, The J. D. Swinson Loan Fund, and others, which are available upon application.

THE JENNIE E. ALEXANDER STUDENT LOAN FUND. A bequest from the will of Mrs. Jennie E. (Bidleman) Alexander, the net income to be applied toward loans to capable and worthy students at Flora Macdonald College who would be unable to enter or remain in school without such assistance. Amount, \$15,000.00.

THE NATIONAL DEFENSE STUDENT LOAN PROGRAM. The National Defense Education Act, passed by the Senate and the House in August, 1958, and signed into law by President Eisenhower on September 2, authorizes more than one billion dollars in Federal aid to education.

Title II of this act provides for loans to worthy and needy students in institutions of higher education. Assistance is in the form of loans that bear no interest until repayment begins, and the borrower is not required to begin repayment

until he has been out of school for one year. Up to \$1,000 a year for five years may be borrowed under the conditions of this act.

Special consideration is given to current students, and incoming freshmen, with superior academic backgrounds who plan to become elementary or secondary school teachers, or to students whose academic background indicates a superior capacity for, or preparation in, science, mathematics, engineering, or a modern foreign language. The loan fund is also "reasonably available" to all students who meet the eligibility requirements.

THE PICKETT AND HATCHER EDUCATIONAL FUND grants loans to students who are accepted by the Board of Trustees of the Fund. Loans bear interest at the rate of 2% per annum during the time the student remains in college. Four months after leaving college, the rate changes to 4% per annum.

THE ROTARY CLUB STUDENT FUND. This fund has been established by and is under the supervision of the Red Springs Rotary Club. The College Bursar will assist worthy students in making application for loans. Preference is given upper classmen.

THE STANBACK STUDENT LOAN FUND is to be used to aid worthy and promising students who could not otherwise meet their college expenses. Loans from this fund are to be secured by promissory notes bearing interest at the rate of 3% per annum. These notes are to be repaid within a reasonable time after the recipient has completed his formal education.

STATE LOANS FOR PROSPECTIVE TEACHERS: These are available from the N. C. Department of Public Instruction. Applicants may gain additional details by writing the Department.

SECURITY TUITION PLAN: Students whose parents may be interested in the Security Tuition Plan, which provides a

monthly payment program and life insurance coverage for the parent, may secure details from the Group Creditor Department, Security Life and Trust Company, Winston-Salem, North Carolina.

ADMISSION

Flora Macdonald College welcomes students whose records indicate high moral character, sincerity of purpose, and ability to do college work successfully.

A student desiring admission is advised to apply early and to have her high school record sent not later than the spring semester preceding her graduation from high school. Blank forms for this purpose will be furnished by the college. After graduation from high school an additional form will be sent to the Superintendent with the request that the full record of the student's senior year be recorded and returned to the registrar. Final acceptance of the student by the college cannot be made before this record has been received.

Correspondence with reference to admission of students should be addressed to the Registrar.

A registration fee of \$10.00 must accompany each application for admission. This fee will not be refunded after July first. Any preference in rooms will be given in the order of application.

ADMISSION TO THE FRESHMAN CLASS

The college requires for admission to the Freshman Class graduation from an approved secondary school with a minimum of sixteen units, or the equivalent of this requirement as shown by examination. However, graduation from an accredited high school does not necessarily imply unconditional entrance to the freshman class. This depends upon whether the student is able to present the entrance units which are prescribed for admission to the freshman class. In order to do this the high school student should take such courses in high school as will enable her to meet these requirements.

A graduate of an accredited high school or a student who has passed the College Entrance Examination, but who does not present the specified entrance units, must make up this deficiency before her sophomore year.

The prescribed entrance units for admission to the freshman class are the same for all degrees and are as follows :

English	4 units
Foreign Language } Latin or Modern Language }	2 units
Mathematics	2 units
Natural Science	1 unit
Social Science	1 unit
Elective	6 units

In fulfilling the entrance requirement in Mathematics one unit of Algebra is required. The student is urged to offer the second unit in Plane Geometry or a second unit in Algebra. However, Business Arithmetic or General Mathematics will be accepted.

A student deficient in Social Science or in Natural Science will use the credit earned the first semester in either of these subjects as an entrance credit.

When possible, students are urged to present at least two units in each of two foreign languages, two units in Algebra, two units in History, and two in Natural Science. Other subjects in which elective credit may be offered are: Art, Bible, Music, Speech, Shorthand, Typewriting, Bookkeeping, Commercial Law, Commercial Geography, Commercial Arithmetic, Home Economics.

Any subject offered not included above must be approved by the Committee on Admissions who will consider its acceptance on the basis of the data furnished by the applicant's school.

Credit for less than one-half unit will not be accepted in any subject.

Credit for less than two units will not be accepted as fulfilling a subject requirement in a foreign language.

A graduate of an accredited high school who does not present the full entrance requirement in a foreign language may remove this deficiency by taking in her freshman year an elementary course for which she will not receive college credit, or by passing satisfactorily an entrance examination in that subject.

ADVANCED PLACEMENT

In certain subjects candidates who have completed advanced work in secondary schools may apply for advanced

placement at Flora Macdonald College. Each case will be considered individually on its own merits. Candidates interested in Advanced Placement are urged to take the Advanced Placement Tests given by the College Entrance Examination Board. Questions about Advanced Placement should be directed to the Dean of Admissions.

ADMISSION TO ADVANCED STANDING

A student applying for advanced standing must fulfill the prescribed entrance requirements for admission to the freshman class. She must send to the Registrar: (1) an honorable dismissal from the college attended; (2) an official statement of entrance and college credits. Certificates of courses successfully pursued at colleges and universities of equal grade with Flora Macdonald are accepted at their full value in so far as the courses taken correspond to courses offered at Flora Macdonald.

In order to enter college for a second year, the student must have passed a total of twenty semester hours with grades sufficient to entitle her to fourteen quality points. Summer school credits may be counted in this total.

In order to enter college for a third or fourth year, she must have passed during the previous year a total of twenty-four semester hours with grades sufficient to entitle her to twenty-four quality points. Summer school credits may be counted in this total.

SPECIAL STUDENTS

A student not less than twenty-one years of age may be admitted to such courses as she is prepared to take even though she cannot fulfill the requirements for admission to the freshman class. Later, should she desire to become a candidate for a degree, she must satisfy all entrance requirements. In exceptional cases a graduate of an accredited high school who wishes to follow a non-degree program for one or two years in preparation for some special work may not be required to remove an entrance deficiency in prescribed units. She will be classified as an irregular or special student and cannot become a candidate for a degree until prescribed entrance requirements have been fulfilled.

ADMINISTRATION OF CURRICULUM

REGISTRATION

When the student receives her registration slip from the Bursar, she reports to the faculty adviser to whom she has been assigned. After her schedule has been arranged and signed no change may be made without first securing permission from the Dean of the College.

LIMITATION OF HOURS

A semester hour is a period of one hour a week during one semester (one-half the scholastic year). One semester hour of credit is given for two hours of work each week in the laboratory.

The minimum number of hours of credit for each semester shall be fifteen, and the maximum seventeen; but in cases where permission has been secured from the Dean of the College the minimum number of hours may be twelve and the maximum nineteen.

Students must confer with their faculty advisers in regard to their academic schedules.

CLASS ATTENDANCE

Prompt and regular class attendance is required of all students. A full discussion of the regulations regarding absences will be found in the Student's Handbook.

GRADES AND QUALITY POINTS

Grades are indicated on reports as follows: A, 94-100; B, 87-93; C, 77-86; D, 70-76; E, 60-69 (Conditional failure which may be removed by a re-examination); F, Below 60, the course to be repeated in class.

The quality point is taken as the unit of merit; for example, a grade of A gives three points, B gives two points, C gives one point, for each semester hour of credit.

EXAMINATIONS AND REPORTS

Semester examinations are given the last week of each semester. Written lessons, quizzes, and tests are given by each instructor as the program of his or her work requires.

Mid-semester reports are sent to students and to parents. Grades on these reports are not final, but are given to indicate the character of work the student is doing.

Semester reports are sent to students and to parents at the end of the first semester, and to parents at the end of the second semester. Grades on these reports are final and are so recorded on students' records.

Students making E on a subject will be allowed one re-examination on that subject.

Students are required to remove conditions during the first three weeks of classes.

CLASSIFICATION

The classification of a student depends upon the amount of college work and the number of quality points she has to her credit, and not upon the length of time she has been in college. A student is classified:

(1) As a Senior, upon the completion of ninety semester hours, with grades sufficient to entitle her to ninety quality points, provided that fifteen hours be taken each semester of the current session.

(2) As a Junior, upon the completion of fifty-six semester hours, with grades sufficient to entitle her to fifty quality points, provided that fifteen hours be taken each semester of the current session.

(3) As a Sophomore, upon the completion of twenty-four semester hours, with grades sufficient to entitle her to twenty quality points, provided that sixteen hours be taken each semester of the current session. No student will be admitted to the Sophomore class who has not removed all entrance conditions.

(4) As a Freshman, if the regular admission requirement has been presented. Second year regular students who have not been admitted to Sophomore standing are also classified as Freshmen.

(5) As an Irregular or Special student, if the regular admission requirement has not been presented, or if the regular courses of study are not followed.

RE-ADMISSION

In order to return to college for a second year, the student must have passed a total of twenty semester hours with grades sufficient to entitle her to fourteen quality points. Summer school credits may be counted in this total.

In order to return to college for a third or fourth year, she must have passed during the previous year a total of twenty-four semester hours with grades sufficient to entitle her to twenty-four quality points. Summer school credits may be counted in this total.

In meeting these requirements, the total number of semester hours must represent the number of hours actually passed with a grade D or above. No grade of E (Conditional failure) may be counted.

WITHDRAWAL OF STUDENTS FROM THE COLLEGE

If at any time in the session a student is found to be lowering either the intellectual or moral tone of the institution, she will be asked to withdraw.

CREDIT FOR SUMMER SCHOOL WORK

Any student desiring to take summer courses at an institution other than Flora Macdonald and to receive credit therefor toward graduation must first have the approval of the professor in whose department she wishes to receive credit.

Such courses must be of college grade taken in a summer school conducted by an institution of equal rank with Flora Macdonald College, and only such credit will be given as would be allowed toward graduation by the institution conducting the summer school. The student must present from the office of the Registrar of the institution in question a statement of the courses taken and their value toward graduation.

GUIDANCE AND COUNSELING

STUDENT COUNSELING

Flora Macdonald College maintains a counseling program that aims at helping each student solve her personal, academic, and vocational problems from the time she applies for admission to her graduation.

Pre-college counseling is under the direction of Dean Rodger W. Decker, Director of Admissions. Prospective students are invited to discuss with him their college needs and plans, and, if desired, arrangements may be made to take aptitude and content examinations designed to guide the applicant in her academic and vocational decisions.

Upon admission to the College, the student receives general academic and personal counseling from the experienced faculty members, headed by Dean Price H. Gwynn, Jr. Each freshman is assigned a counselor who assists her in becoming oriented to campus life and in planning her academic program. The counselor confers periodically with the student concerning her academic progress, and is the immediate source of help to which the student may turn for discussion of her personal problems.

Prior to the beginning of the fall semester, there is a four day Orientation Period for all freshmen and transfer students. This time is devoted to explanation of the college regulations and traditions, the campus and the community. Also, entering students take a series of tests which serve the student and her counselor in planning the college program for each individual. A well-balanced social program is also a part of Orientation Week. In addition to this formal program, seminars and discussion groups are planned during the first semester to consider personal, social, and academic problems.

General vocational counseling is under the supervision of the Director of Guidance, serving the student directly or through her counselor or adviser. The entering freshman is given a battery of general aptitude and achievement tests,

which serve as a basis of later counseling. A complete file of aptitude and vocational tests is available for all students in the Guidance Center, and may be taken without cost.

READING CENTER

In order to aid students who are having special difficulties in getting the meaning from the printed page, a Reading Center has been established under the supervision of the Director of Guidance. Any student desiring help in diagnosing her reading problems and in undertaking remedial measures may use this service. Counselors and instructors refer students to the Center for help. Any student wishing to improve her reading skills, even though she has no special difficulty, may also use the facilities of the Center. The Reading Center is located in the Guidance Center Building.

PLACEMENT SERVICE

Flora Macdonald College offers vocational placement service to senior students and in a limited degree to alumnae.

The Bureau of Teacher Placement is directed by Professor Mary MacLean Conoly. This Bureau collects the information and credentials of those desiring the service and makes them available to interested school administrators. Where possible, administrators are invited to the college campus for interviews with the teaching candidates.

The Bureau of Vocational Placement, other than Teacher Placement, is under the supervision of the Director of Guidance. This Bureau serves as a clearing house for information on openings in business, industry, government service, and graduate study. It arranges interviews between interested seniors and representatives from these fields. It also makes known to students summer employment opportunities when such information is available.

GUIDANCE AND COUNSELING CENTER

ERNEST H. ST. JACQUES, *Associate Director*

Flora Macdonald College was the first college to coöperate with the General Assembly of the Presbyterian Church U. S. in establishing a Guidance and Counseling Center. This department works closely with the Department of Christian Vocation of the Board of Christian Education, in offering the advantages of a modern, Christian Guidance Center to persons outside the college community.

This is an individual, scientific, Christian service, aimed to aid young people in their search for God's will in their lives. Realizing that every occupation can be a Christian calling, the Center aids youth in determining their vocational interests, vocational aptitudes, mental abilities, and personality characteristics. This is accomplished by means of standardized tests, personal conferences and assigned readings.

Young people are urged to make use of this Center during their Junior year of High School. Appointments may be made through any Presbyterian minister or by writing directly to the Guidance and Counseling Center. Inasmuch as two days are needed for this program, meals and lodging for persons who must travel long distances may be secured at the college. The Guidance Center occupies a separate frame building which was remodeled in 1956. There is no cost to the counselee other than for food and lodging. This service is available to both boys and girls and is also open to older persons who might benefit from the experience.

DEGREES AND REQUIREMENTS

The College offers courses leading to the following degrees: Bachelor of Arts, Bachelor of Music, Bachelor of Music Education, and Bachelor of Science.

Candidates for each degree are required to complete with an average grade of C one hundred and twenty semester hours of work exclusive of applied courses in Physical Education. The last thirty hours must be taken in residence. As C gives one point for each semester hour of credit, this qualitative requirement is equivalent to one hundred and twenty quality points. A student who fails to attain this standard may take additional courses of junior-senior rank until the deficiency is removed.

THE BACHELOR OF ARTS DEGREE

A candidate for the degree of Bachelor of Arts should complete the basic requirements as outlined below.

1. Bible	12 semester hours
2. Biology, Chemistry, Physics.....	8 semester hours
3. English	12 semester hours
4. Foreign Language	12 semester hours
5. Latin or Greek or Mathematics.....	6 semester hours
6. Psychology 201	3 semester hours
7. History	9 semester hours
<hr/>	
Total.....	62 semester hours

Advanced courses in subjects listed above may be delayed until the junior year, but all other courses should be completed by the end of the sophomore year.

To fulfill the foreign language requirement, the student may choose any foreign language offered by the college.

Students taking Chemistry and Physics are advised to take Mathematics 101, College Algebra.

The student electing an applied music course must also take a theoretical course in order to receive credit toward a degree.

Following are suggested arrangements of courses leading to various fields of study which the student electing the Bachelor of Arts course may wish to pursue.

Not later than the spring of her sophomore year the student must select the department in which she wishes to major. The requirements in each major field are given at the beginning of the description of the courses offered in that department. The additional number of hours required for graduation may be chosen from such courses as she may desire, provided all necessary requirements have been met. In choosing electives the student should seek to secure breadth of study.

To meet individual needs and interests, a student may arrange her own program and submit it to the Dean of the College for approval.

A student who has a deficiency in English usage should remove this deficiency as early as possible.

SUGGESTED ARRANGEMENT OF COURSES FOR
BACHELOR OF ARTS DEGREE WITH A MAJOR IN MUSIC

PROFESSIONAL AND PRE-PROFESSIONAL PREPARATION

TEACHER EDUCATION

The Department of Education conceives its purpose to include these major functions: (1) The selection and guidance of prospective teachers; (2) The professional education of teachers through study and experiences planned to develop those understandings and techniques related to teaching; (3) Assistance in the placement of teachers in suitable positions so as to secure the best possible teaching and the maximum of professional growth.

Prospective teachers are offered the opportunity to qualify for certificates to teach in the elementary and secondary schools of North Carolina and other states. The student who intends to teach should confer with the Dean of the College and the Department of Education early in the sophomore year, and should become informed concerning requirements for teachers' certificates. Full cooperation is given by the College in this matter, but the meeting of certification requirements remains the responsibility of the individual student.

Should a student prefer to substitute a course in place of one required for a state certificate, permission must be secured from the Dean of the College and the Head of the Department of Education.

Opportunity for guided observation and supervised teaching is provided for qualified seniors in the public schools of the area.

Any prospective teacher who has a deficiency in English usage, speech, reading, penmanship, or any weakness apt to interfere with success in teaching, should remove such deficiency as early as possible. Likewise, skill should be acquired in the use of audio-visual equipment and other teaching aids.

REQUIREMENTS FOR THE DEGREE OF BACHELOR OF SCIENCE

The degree of Bachelor of Science is conferred for work in pure science, medical technology, nursing and home economics.

BACHELOR OF SCIENCE IN PURE SCIENCE

A candidate for the degree of Bachelor of Science in Pure Science should complete the basic requirements as outlined below:

1. Bible	12 semester hours
2. English	12 semester hours
3. Foreign Language	12 semester hours
4. Mathematics 101-102	6 semester hours
5. Psychology	3 semester hours

The number of elective courses offered in any one year will be determined by the needs and desires of the students.

MODERN LANGUAGES

French

Major requirements: French 201-202, 301-302, 401-402, 415 (for prospective teachers only). Two of the following: 303, 404, 405, 406.

101-102. ELEMENTARY FRENCH. Fundamentals of grammar, composition, phonetics, pronunciation, and dictation. During second semester selected graded readings from representative French authors.

Credit (when not offered for entrance): Six semester hours, if followed by French 103-104,* or if taken as a fourth foreign language.

MISS NEYLANDS

103-104. INTERMEDIATE FRENCH. Thorough review of grammar, verb drills, composition, dictation and pronunciation. Second semester, selected prose readings from French authors. Open to students presenting two units of high school French, or to those completing 101-102.

Credit: Six semester hours.

MISS NEYLANDS

201-202. ADVANCED FRENCH. Translation and composition. Selected readings from representative authors. Periodic reports and discussions. Designed for vocabulary building and rapid reading.

Prerequisite: French 103-104.

Credit: Six semester hours.

MISS NEYLANDS

*Does not pertain to music majors required to have only one year of French.

301-302. SURVEY OF FRENCH LITERATURE. A survey of the masterpieces of French literature from the Middle Ages to the present time. Class discussions, including the development of the literature, style and syntax. Collateral readings and reports.

Prerequisite: French 201-202.

Credit: Six semester hours.

MISS NEYLANDS

303. FRENCH CONVERSATION. Intermediate course in conversation and pronunciation, primarily for prospective teachers. Direct method. Fall semester.

Credit: Three semester hours.

MISS NEYLANDS

401-402. FRENCH CIVILIZATION. A study of the development of French culture from the earliest times to the present. Lectures, collateral readings and reports.

Prerequisite: French 301-302, or equivalent.

Credit: Six semester hours.

MISS NEYLANDS

404. ADVANCED FRENCH CONVERSATION AND PHONETICS. An advanced course in French conversation and comprehension for prospective teachers. There will be some introduction to phonetic theory and transcription. (This course is required for a teacher's certificate in French.)

Prerequisite: French 303.

Credit: Three semester hours.

MISS NEYLANDS

405. FRENCH CLASSICISM. A study of the Classical period of French literature and life. Selected plays from Corneille, Racine and Molière. Lectures, class reports and discussions. Fall semester.

Prerequisite: French 301-302, or equivalent.

Credit: Three semester hours.

Credit (when not offered for entrance): Six semester hours, if followed by Spanish 103-104, or if taken as a fourth language.

MR. CLIFTON

103-104. INTERMEDIATE SPANISH. Thorough review of grammar, special drill in verbs and idioms, composition and dictation. Stories from representative authors. Synopses of collateral readings, and class discussion.

Credit: Six semester hours.

MR. CLIFTON

201-202. ADVANCED SPANISH. Translation and composition. Reading of more difficult texts, advanced composition and frequent reports. Further grammar drill and vocabulary building.

Credit: Six semester hours.

MR. CLIFTON

301-302. SURVEY OF SPANISH LITERATURE. A study of the main currents of Spanish literature from the Middle Ages to the Twentieth Century. An attempt to visualize Spanish civilization through its literature. Collateral readings and reports.

Credit: Six semester hours.

MR. CLIFTON

303. ELEMENTARY SPANISH CONVERSATION. Aims to give to student confidence in expression of simple idiomatic

Spanish. Class exercises upon topics of everyday interest. Required of prospective teachers.

Credit: Three semester hours.

MR. CLIFTON

401-402. SPANISH LITERATURE OF THE NINETEENTH AND TWENTIETH CENTURIES. The Regional novelists and the "Generacion de 98," and the literary tendencies of today. Collateral readings and reports.

Prerequisite: Spanish 201-202.

Credit: Six semester hours.

MR. CLIFTON

404. ADVANCED SPANISH CONVERSATION. Conversation and composition for prospective teachers. Style and diction.

Prerequisite: Spanish 303.

Credit: Three semester hours.

MR. CLIFTON

405-406. THE GOLDEN AGE OF SPANISH LITERATURE. The works of Lope de Vega, Calderon, and their contemporaries. Collateral readings and reports. Senior elective. Prerequisite: Spanish 201-202.

Credit: Six semester hours.

MR. CLIFTON

415. MODERN LANGUAGES IN THE HIGH SCHOOL. (See French 415.)

It is recommended that the Modern Language majors elect: History 101-102, 313-314, and Latin 101-102.

Not all courses listed under Modern Languages will be offered in any one year. A selection will be made, meeting as far as possible the needs and desires of students electing advanced courses.

HISTORY AND SOCIAL SCIENCE

MISS ROBERTSON

MISS MCINTYRE

MRS. NEIGHBORS

DR. GWYNN

HISTORY

Major Requirements: History 101-102, 201-202, 306, and either 401-402 or 409-410. Three of the following: History 303, 304, 313, 314, 412. History Methods 415 for prospective teachers.

101-102. SURVEY OF EUROPEAN CIVILIZATION. A survey of the history of Europe from the Renaissance to the present.

Credit: Six semester hours.

MISS ROBERTSON

201-202. HISTORY OF THE UNITED STATES. A general survey of the history of the United States from the period of discovery and exploration through World War II and its aftermath.

Credit: Six semester hours.

MISS ROBERTSON

303-304. ENGLISH HISTORY. The leading events of English History from Anglo-Saxon times through World War II and present day problems of post-war Britain.

Credit: Six semester hours.

MISS ROBERTSON

306. AMERICAN GOVERNMENT AND POLITICS. A study of national government, with special emphasis on government in action, elections, law making and administration. It is the purpose of this course to give the student a clear understanding of American institutions and politics and to prepare for intelligent citizenship.

Credit: Three semester hours.

MRS. NEIGHBORS

313-314. CLASSICAL CIVILIZATION. For description see same number under Foreign Languages.

401-402. MODERN EUROPEAN HISTORY. A study of European History from 1900 through World War II. Problems of the post war world.

Credit: Six semester hours.

MISS ROBERTSON

409-410. WESTERN AMERICA. The history of the American West is traced from the days of the early Spanish and French explorers and the eventual leadership of the Anglo-Americans to the present time. Stress is placed upon the developments and problems that are peculiarly western, the recent phenomenal growth of the Trans-Mississippi West, and the area's role in our current national life.

Credit: Six semester hours.

MISS ROBERTSON

412. HISTORY OF THE SOUTH. A survey of the history of the southern United States from 1607 to the present. Emphasis is on present day problems of the South.

Credit: Three semester hours.

MISS ROBERTSON

415. THE TEACHING OF HISTORY. A course treating briefly the scope and aims of history, the organization of courses, methods of presentation, testing, and the study of material used in history.

Credit: Three semester hours.

MISS ROBERTSON

Not all courses listed above will be offered in any one year. A selection will be made, meeting as far as possible the needs and desires of students electing advanced courses.

SOCIAL SCIENCE

314. CONSUMER ECONOMICS. Problems of personal and family money management, choice of goods, housing, insurance, investments, and private and public aids for the consumer.

Credit: Three semester hours.

MISS MCINTYRE

321. GENERAL ECONOMICS. An introductory course which gives a survey of our present-day economic organization. Emphasis is placed upon the production and exchange of wealth.

Credit: Three semester hours.

MRS. NEIGHBORS

322. GENERAL ECONOMICS. A continuation of Economics 321. Emphasis is placed upon exchange and the proportionate share of wealth to be distributed among the primary factors of production.

Prerequisite: Economics 321.

Credit: Three semester hours.

MRS. NEIGHBORS

323. ECONOMIC GEOGRAPHY. A study of the natural resources and industries of major regions of the world with emphasis on manufacturing, mining, and trade and the effects of these on human relationships.

Credit: Three semester hours.

MRS. NEIGHBORS

324. NORTH AMERICA. A study of North America with emphasis upon the geographical factors affecting the political, economic and cultural development of this continent.

Credit: Three semester hours.

MRS. NEIGHBORS

417. CHRISTIAN MARRIAGE AND THE FAMILY. A study of the development of these two social institutions with consideration given to such problems as: Woman's position, courtship, marital adjustments, safeguarding the marriage relationship, divorce, and social changes affecting the family.

Credit: Three semester hours.

DR. GWYNN

HOME ECONOMICS

MRS. CURRIE

MISS TAYLOR

103. CLOTHING SELECTION AND CONSTRUCTION. Fundamental principles in selection, purchase, and construction of clothing and textiles for the individual.

Lecture, one hour; laboratory, four hours.

Laboratory fee: \$3.00.

Credit: Three semester hours.

MISS TAYLOR

104. FOOD SELECTION AND PREPARATION. Emphasis in this course is placed upon standards of selection, preparation, and service of foods.

Lecture, one hour; laboratory, four hours, one semester.

Laboratory fee: \$5.00.

Credit: Three semester hours.

MRS. CURRIE

201. MEAL STUDY. This course includes the study of planning, marketing, selection, storage, preparation, and serving of food for different occasions at different cost levels.

Lecture, one hour; laboratory, four hours, one semester.

Laboratory fee: \$10.00.

Credit: Three semester hours.

MRS. CURRIE

204. COSTUME DESIGN AND CONSTRUCTION. The application of art principles to dress designing and the construction of garments from designed patterns.

Prerequisites: Clothing 103 and Art 321.

Lecture one hour; laboratory four hours.

Laboratory fee: \$3.00.

Credit: Three semester hours.

MISS TAYLOR

224. FOOD PREPARATION AND MEAL STUDY. The selection, purchase, storage, and preparation of food; the planning and serving of meals for different occasions at varying cost levels. Planned for non-majors.

Lecture, two hours; laboratory, two hours.

Laboratory fee: \$5.00.

Credit: Three semester hours.

MRS. CURRIE

305. HOUSEHOLD ECONOMICS. Principles and problems of the consumer-buyer; organization and management of household activities, time, labor, and income as they affect family relationships.

Lecture, three hours.

Credit: Three semester hours.

MRS. CURRIE

307. FAMILY CLOTHING. Problems in selection of clothing for the family from view point of design, color, and economy.

Lecture, three hours.

Credit: Three semester hours.

MISS TAYLOR

309. NUTRITION AND DIETETICS. Study of the nutritive requirements of the body for normal health and development, emphasizing the relationship of food to health and efficiency; selection of food for various ages; dietaries for families of different incomes.

Lecture, three hours, one semester.

Credit: Three semester hours.

MRS. CURRIE

310. THE HOUSE AND ITS FURNISHINGS. A study of the house as a unit and the relationship of its integral parts based on the needs of families of varying incomes. Attention is given to design, floor plans, site, cost, legal matters, and landscaping. Emphasis is placed upon the application

of art principles to problems in furnishings and decoration and desirable qualities in merchandise for the home.

Lecture, one hour ; laboratory, four hours.

Laboratory fee: \$3.00.

Credit: Three semester hours.

MISS TAYLOR

402. HOME MANAGEMENT. A study of the place of management in homemaking and family life with special emphasis on labor and time saving methods, and factors that constitute household managerial ability.

Lecture, three hours.

Laboratory fee: \$3.00.

Credit: Three semester hours.

MRS. CURRIE

This will be required of all Home Ec. majors as a parallel with Home Management Residence.

403. HOME MANAGEMENT HOUSE RESIDENCE. Residence in home management house including meal planning and preparation at varying cost levels, organization, informal home entertaining. Required of all home economics seniors.

Laboratory fee: \$20.00.

Credit: Three semester hours.

MISS TAYLOR

407. CLOTHING CONSTRUCTION. Advanced techniques in clothing construction ; pattern adaptations ; skills developed through problems in tailoring.

Prerequisites: Clothing 103 and 204.

Lecture, one hour ; laboratory, four hours.

Laboratory fee: \$3.00.

Credit: Three semester hours.

MISS TAYLOR

408. TEXTILES. The study of textiles from raw materials through construction, identification, analysis, choice, use, and care of fabrics.

Lecture, two hours ; laboratory, two hours.

Laboratory fee: \$3.00.

Credit: Three semester hours.

MISS TAYLOR

409. **NUTRITION IN DISEASE.** Required for dietetics majors. This course deals with nutrition as related to the more common diseases as well as disorders due to inadequate diets that may be corrected in the home.

Lecture, two hours; laboratory, two hours.

Laboratory fee: \$6.00.

Prerequisite: Nutrition 309.

Credit: Three semester hours.

MRS. CURRIE

412. **CHILD DEVELOPMENT.** A study of the physical, mental, and social development of the child. Theory and practice used in nursery school education. Laboratory observation of preschool child.

Prerequisite: Christian Marriage and Family 417.

Lecture, three hours.

Credit: Three semester hours.

MRS. CURRIE

415. **METHODS OF TEACHING HOME ECONOMICS.** This course includes a survey of Home Economics education, methods, classroom procedures, evaluation and teaching aids in Home Economics.

Lecture, three hours.

Credit: Three semester hours.

MRS. CURRIE

Students should provide themselves with at least two white uniforms and hair nets to be worn in all laboratory classes in Foods and Nutrition.

MATHEMATICS

MRS. C. WADE MOBLEY

Major Requirements:

30 semester hours in Mathematics, including Mathematics 101-102, 201, 202, 301, and either 403 or 404. Certain related work is to be selected with the guidance of the Department.

The major student who plans to do graduate work is reminded that, due to the important mathematical literature

in French, it is desirable to obtain a reading knowledge of that language as an undergraduate.

The following program of courses in Mathematics is planned for 1960-61.

Fall: 101, 201, 301, 303, 415. Spring: 102, 202, 402, 404.

101. COLLEGE ALGEBRA. A brief review of elementary algebra, followed by a study of quadratic equations, progressions, binomial theorem, theory of equations, partial fractions, and determinants.

Credit: Three semester hours.

102. PLANE TRIGONOMETRY. Logarithms, right and oblique triangles, radian measure, graphs of trigonometric functions, inverse trigonometric functions, trigonometric identities and equations.

Credit: Three semester hours.

201. PLANE ANALYTICAL GEOMETRY. Rectangular and polar coordinates, loci, straight lines, conic sections, transformation of coordinates, tangents and normals.

Credit: Three semester hours.

202. DIFFERENTIAL CALCULUS. Differentiation of elementary functions, curve tracing, maxima and minima, motion, curvature, indeterminate forms, series.

Credit: Three semester hours.

301. INTEGRAL CALCULUS. Integration of elementary functions, areas, solids of revolution, length of arc, surfaces of revolution, centroids, moments of inertia, partial differentiation, multiple integration.

Prerequisite: 202.

Credit: Three semester hours.

*302. ANALYTICAL GEOMETRY OF THREE DIMENSIONS. Coordinate systems of space, the plane, the line, the quadric surfaces, and the theory of space curves and surfaces.

Prerequisite: 201.

Credit: Three semester hours.

***303. INTRODUCTION TO MODERN GEOMETRY:** An integrated study of the elementary theory in foundation of geometry and basic theory in the fields of Euclidian and projective geometry. Logical systems, axioms, Menelaus' and Ceva's theorems, harmonic elements and cross ratio inversion theory, projections, invariants, duality, Desargue's theorem, perspectivities, and projectivities. Recommended for prospective teachers of mathematics.

Prerequisite: 201.

Credit: Three semester hours.

***304. INTRODUCTION TO MATHEMATICAL STATISTICS.** Mathematical foundations of elementary statistical methods and their applications. An introduction to probability; discrete and continuous distributions; correlation, regression, and statistical independence; foundations of sampling theory; significance tests.

Prerequisite: 301.

Credit: Three semester hours.

***401. THEORY OF EQUATIONS.** Permutations. Determinants. Properties of polynomials in a field, equations in the rational and real number fields, graphs, isolation of real and complex roots, cubic and quartic equations, symmetric functions, algebraic field extensions, ruler and compass constructions.

Prerequisite: 202.

Credit: Three semester hours.

***402. MODERN HIGHER ALGEBRA.** An introduction to modern algebra: numbers, fields, rings, groups, vectors and vector spaces, linear transformations, matrices, algebra of classes, ideals and algebraic numbers.

Prerequisite: 301.

Credit: Three semester hours.

***403. DIFFERENTIAL EQUATIONS.** Solution of differential equations of elementary types; formation and integration of

equations arising in applications; solution of equations of higher order and degree than the first, solution by series.

Prerequisite: 301.

Credit: Three semester hours.

*404. **ADVANCED CALCULUS.** Limits, continuity, infinitesimals, differentials, power series, partial and implicit differentiation, definite and line integrals.

Prerequisite: 301.

Credit: Three semester hours.

*415. **THE TEACHING OF MATHEMATICS.** This course is a study of the principles and objectives of secondary mathematics, general and specific techniques, organization of content materials and enrichment materials including history of mathematics. It does not count toward the major.

Credit: Three semester hours.

*Will be offered in alternate years.

BIOLOGY

Major Requirements: Biology 101, 102, and at least nineteen semester hours to be chosen from the following: Biology 201, 202, 204, 301, 302, 303, 401, 402, 404.

Required supplementary course, Geography 321. (Cannot be considered as part of the major.)

The laboratory fee for each course in science, with the exception of Comparative Anatomy, will be \$5.00 per semester. The fee for this course will be \$10.00. A breakage deposit of \$5.00 is required of all Bacteriology students at the beginning of the year. The fee will be returned at the end of the year less the actual amount of breakage.

101. **GENERAL ZOOLOGY.** An introduction to the fundamental principles of animal biology. A study of the morph-

ology, physiology and relationships of representative forms of animal life.

Lecture, three hours; laboratory, three hours.

Credit: Four semester hours.

MISS HAWSE

102. GENERAL BOTANY. A study of the morphology and physiology of higher plants, followed by a survey of the plant kingdom.

Lecture, three hours; laboratory, three hours.

Credit: Four semester hours.

DR. HANSEN

201. HUMAN PHYSIOLOGY. A study of the normal activities of the human body.

Elective for B.A. students.

Lecture, four hours.

Prerequisite: Biology 101, or 102, or 202.

Credit: Four semester hours.

DR. HANSEN

202. HUMAN ANATOMY. A useful basic course on the structure of the human body. Recommended for majors and also as a general information course.

Lecture, 3 hours.

Prerequisite: Biology 101.

Credit: Three semester hours.

MISS HAWSE

204. PLANT MORPHOLOGY. The structure and relationship of plants.

Lecture, one hour; laboratory, four hours.

Prerequisite: Biology 102.

Credit: Three semester hours.

DR. HANSEN

301. BACTERIOLOGY. A study of the morphology and physiology of the micro-organisms, especially bacteria, and their relation to man. Laboratory training in the essential techniques of media preparation, sterilization, cultivation, isolation and identification of bacteria.

Lecture, two hours; laboratory, four hours.

Prerequisite: Biology 101, or 102.

Credit: Four semester hours.

MISS HAWSE

302. COMPARATIVE ANATOMY. A study of the comparative morphology and relationships of chordates.

Lecture, two hours; laboratory, four hours.

Prerequisite: Biology 101.

Credit: Four semester hours.

MISS HAWSE

303. LANDSCAPE GARDENING. A study of trees, shrubs, and herbaceous plants in relationship to the home.

Laboratory, two hours.

Credit: One semester hour.

DR. HANSEN

401. EMBRYOLOGY. A study of the pre-natal development of the vertebrate, based on laboratory observation of the chick embryo.

Lecture, two hours; laboratory, four hours.

Prerequisite: Biology 101 (other Biology courses desirable.)

Credit: Four semester hours.

MISS HAWSE

402. GENETICS. A study of the science of heredity together with its application to human society.

Lecture, three hours.

Prerequisite: Biology 101 or 102.

Credit: Three semester hours.

MISS HAWSE

404. FIELD BIOLOGY. Identification, habitat, and characteristics of the plants and animals in this area. The course is of value to prospective teachers and others interested in nature study.

Lecture, two hours; laboratory, two hours.

Credit: Three semester hours.

DR. HANSEN

415. THE TEACHING OF HIGH SCHOOL SCIENCE. A course designed to give the prospective teacher a more thorough knowledge of the subject and of the desirable methods of teaching it.

Prerequisites: a background of science courses.

Credit: Three semester hours.

DR. HANSEN

Not all courses listed above will be offered in any one year. A selection will be made, meeting as far as possible the needs and desires of students electing advanced courses.

CHEMISTRY

Major requirement: Twenty-seven semester hours of Chemistry. At least twelve semester hours of mathematics are recommended.

The laboratory fee for each course in Chemistry is \$5.00 each semester. A breakage deposit of \$2.50 for Chemistry 101-102, and \$5.00 for all other Chemistry courses is required at the beginning of each course. This fee will be returned at the completion of the courses less the actual amount of breakage.

101-102. GENERAL CHEMISTRY. Fundamental laws and theory.

Lecture, three hours; laboratory, three hours.

Credit: Eight semester hours.

MR. LEWIS

201. QUANTITATIVE ANALYSIS. An introduction to the theory and techniques of inorganic volumetric and gravimetric analysis.

Lecture, two hours; laboratory, six hours.

Prerequisite: Chemistry 101-102.

Credit: Four semester hours.

MR. LEWIS

202. QUALITATIVE ANALYSIS. The systematic separation and identification of the familiar metallic ions and acid radicals, using semi-micro technique.

Lecture, two hours; laboratory, six hours.

Credit: four semester hours.

MR. LEWIS

301-302. ORGANIC CHEMISTRY. An introduction to the study of the chemistry of aliphatic and aromatic organic compounds.

Lecture, three hours; laboratory, three hours.

Prerequisite: Chemistry 101-102.

Credit: Eight semester hours.

MR. LEWIS

303. ORGANIC CHEMISTRY. A brief study of carbon compounds for students who do not plan to major in Chemistry. Credit will not be given for both 303 and 301-302.

Lecture, two hours; laboratory, two hours.

Prerequisite: Chemistry 101-102.

Credit: Three semester hours.

MR. LEWIS

304. ADVANCED QUANTITATIVE ANALYSIS. A continuation of Chemistry 201, but the theory and techniques chosen are of the analysis of complex materials.

Lecture, one hour, laboratory, six hours.

Prerequisite: Chemistry 201.

Credit: Three semester hours.

MR. LEWIS

401-402. PHYSICAL CHEMISTRY. A course in the fundamentals of physical chemistry.

Lecture, three hours; laboratory, three hours.

Prerequisite: Chemistry 101-102, 201-202, and 301-302.

Credit: Eight semester hours.

MR. LEWIS

415. THE TEACHING OF HIGH SCHOOL CHEMISTRY. This course provides for the prospective teacher of Chemistry a familiarity with the classroom procedures and available teaching aids for High School Chemistry.

Lecture, three hours.

Credit: Three semester hours.

MR. LEWIS

The number of elective courses offered in any one year will be determined by the needs and desires of the students.

PHYSICS

The laboratory fee for each course in Physics is \$5.00 each semester. A breakage deposit of \$2.50 is required at the beginning of each course. This fee will be returned at the completion of the course less the actual amount of breakage.

101. HOUSEHOLD PHYSICS. A study of the physics involved in the common household appliances.

Lecture, two hours; laboratory, two hours.

Credit: Three semester hours.

MR. LEWIS

201-202. GENERAL PHYSICS. A study of the properties of mechanics, heat, sound, light, magnetism, and electricity. Credit is not given for both 101 and 201-202.

Lecture, three hours; laboratory, two hours.

Prerequisite: Mathematics 101-102.

Credit: Eight semester hours.

MR. LEWIS

GEOGRAPHY

321. PHYSIOGRAPHY. A study of the physical features of the earth and their relationship to man. Special attention is given to a study of the southeastern part of the United States.

Credit: Three semester hours.

DR. HANSEN

324. NORTH AMERICA. A study of North America with emphasis upon the geographical factors affecting the political, economic and cultural development of this continent.

Credit: Three semester hours.

MRS. NEIGHBORS

THE CONSERVATORY OF MUSIC

FACULTY

CHARLES G. VARDELL, JR., *Dean*

MR. WILLIAMS

DR. ROGERS

MR. SKINNER

MISS BRYANT

MRS. SPIVEY

The Conservatory of Music offers the following degrees:

Bachelor of Music with a major in Piano, Organ, Voice, or Flute.

Bachelor of Music with a major in Church Music.

Bachelor of Music Education.

Bachelor of Arts with a major in Applied Music.

Credit in Applied Music is based on hours of practice, one semester hour being granted for each six hours per week of practice during a semester, plus the necessary instruction—one hour or more per week. It is understood that credit is not earned unless final examinations are passed. Examinations in applied music will be conducted by the faculty at the end of each semester.

All students majoring in the Conservatory or taking applied music for credit in the Conservatory are required to obtain the permission of their teacher in applied music or the Dean of the Conservatory before participating in any public musical performance, broadcast, telecast, or chapel program.

The requirements for entrance and graduation as set forth in the catalogue are in accordance with the published regulations of the National Association of Schools of Music of which the Conservatory is an institutional member.

The above course is planned for the purpose of preparing students for full-time or part-time service as ministers of music and organists in the church. The student will choose either organ or voice as a major applied subject, with a subsidiary emphasis on voice or organ, as the case may be. However, the student, in consultation with the

advisor, may be permitted to elect piano for as much as two of the four years in lieu of voice or organ as a subsidiary emphasis. In addition to an adequate technical preparation it is expected that the graduate will have developed a high appreciation of church music in all of its aspects.

In view of the educational work which a minister of music must perform in her chosen field, it is recommended that she elect at least six semester hours in the field of religious education.

In further consideration of the various needs and limited resources of many of the smaller churches, it might be wise for students majoring in this course to elect a course in shorthand and typing.

This course is planned for those students who wish to prepare themselves as teachers of music in the public schools.

In choosing an applied music course, the student will continue for at least two years in the field of applied music for which she shows the greatest adaptability and the most effective preparation. After that time she may vary her study to include other fields which she may need in her chosen profession.

These requirements in Piano and Voice must be met by the end of her Junior Year or before she is allowed to do student teaching in music:

PIANO: The student must be able to play accurately, with acceptable pedalling, and at a proper tempo, the following:

1. Community Songs—any of the songs in the "Golden Book of Favorite Songs" or similar community song book.
2. Song Accompaniments—any song accompaniment in any graded series for the elementary or secondary school.
3. Music for Rhythmic Activity—any selections for rhythms found in graded series for elementary and secondary schools.
4. Vocal Score Reading of Part Songs.
5. Selections from Memory—be able to play "The Star Spangled Banner" in the key of B flat, and "America" in the key of G.
6. Chordal Accompaniments—play a I, IV, V accompaniment to a given melody.

VOICE: A. Performance:

1. Ability to sing on pitch.
2. Ability to express mood and spirit of a song.
3. Ability to sing rhythmically.
4. Ability to sing with a tone quality appropriate to the song.

5. Ability to sing with proper diction.
6. All music must be memorized.

B. Materials:

1. Sing unaccompanied a song from a text-book used in the public school system of North Carolina for music classes. (New Music Horizons, American Singer, and supplemental texts as The Singing School, Our Singing World, and Music Hour.)
2. Sing unaccompanied an art song. Arias, dialect songs or highly dramatic songs are not recommended for this exam. Songs must be sung in English.
3. Each student should be prepared to read at sight from materials of difficulty equivalent to those in the following books:
American Singer, Books 7 and 8
Music America Sings
Music of Many Lands and Peoples
Let Music Ring

Three hours a week. Second semester only.

Credit: Three semester hours.

COLLEGE CHORUS. The College Chorus is chosen by individual audition from the entire student body. Secular as well as sacred music is sung, but emphasis is placed on the music of the church. The music programmed for the chorus' sacred concerts is representative of all periods and all branches of the Christian faith. Tours are scheduled for the group each year so as not to interfere with the academic

work of the student. Music majors must maintain a scholastic average of C or above in order to be eligible for tours and shorter trips away from the college. Non-music majors must maintain a C average or above for continuance of membership in the club. Transfer students in the Conservatory who do not offer sufficient choral credit must make up the required hours in some other field of applied music.

Laboratory fee: \$2.00.

Three rehearsals a week throughout the year.

Credit: Two semester hours.

APPLIED MUSIC

REQUIREMENTS IN APPLIED MUSIC

Each student on entering the college division, will be given a placement test in applied music by the head of the department in which she will major. If she is a voice or organ major, a piano examination will also be given. The examination will consist of the performance of a composition chosen by the student and a simple exercise in sight reading.

HEALTH AND PHYSICAL EDUCATION

MISS BATEMAN

DR. C. T. JOHNSON

DR. C. T. JOHNSON, JR.

On entering college each student is given a thorough medical and physical examination by the College Physician, Nurse, and Physical Education Director.

Each student is required to take physical education for three years. It is the responsibility of the student to see that this course is included in her program of work. Also, each student is directed to take not less than forty-five minutes of outdoor exercise each day.

The following activities are offered under the management of the Physical Education Director and the Athletic Association:

Fall months: Volley ball, archery, tennis.

Winter months: Basketball, badminton, table tennis, bowling, and rhythmic.

Spring months: Playground baseball, tennis, archery, hiking, horse shoes, and rhythmic.

A tournament in all sports is held in season. Also a May Day Festival is given in the spring.

The regulation gymnasium outfit, which includes two washable suits, one pair of socks, one pair of shoes, may be secured at the college for approximately \$14.00.

CURRICULA FOR ONE- AND TWO-YEAR BUSINESS COURSES

The following sequence of courses is suggested for students who desire positions as stenographers, bookkeepers, and clerical workers and who do not plan to continue in college the four years required for the Bachelor of Science Degree.

Emphasis is placed upon desirable qualities and attitudes, an understanding of economic principles, and efficiency in office skills.

Graduates of accredited high schools are admitted by certificate to these courses. Graduates of non-accredited high schools must present sixteen units and pass the College Entrance Examination.

A certificate is granted for the satisfactory completion of the two-year course as outlined. (See "Grades and Quality Points" on page 48.)

SUMMER SCHOOL ANNOUNCEMENT

PURPOSE: The aim of Flora Macdonald College is to train and educate men and women for Christian life and service by bringing them to physical, mental, emotional, social, and spiritual maturity, and thus preparing them for useful vocations and successful living in the home, the church, the school, and the world. The College holds that these aims can be maintained during the Summer Session. The Summer Session at Flora Macdonald College is designed to meet the needs of the following groups:

1. Students now in college, who need to make up work or who wish to accelerate their progress in getting a degree.
2. High school graduates, who wish to start their college careers in June rather than September.
3. Teachers who would like to renew or improve their certificates.
4. Others, who may have been out of college for some time and who want to start their education again.
5. People interested in improving themselves in terms of general education and/or particular skill areas. Art and Music workshops are designed to meet the needs of people in this group.

COURSES AND CREDITS

Flora Macdonald College offers the opportunity to secure twelve semester hours of college credit in a period of ten weeks. All courses are at the undergraduate level and correspond to those offered in the regular college year.

The college reserves the right to withdraw the offering of any course for which fewer than five students register.

It is the hope of the administration to serve as many people as possible in the summer session. Hence, courses may be added or substituted as conditions demand.

OFFICIAL ACTION OF THE BOARD OF DIRECTORS
CONSOLIDATED PRESBYTERIAN COLLEGE

November 20, 1958

The Synod of North Carolina of the Presbyterian Church decided in 1955 to consolidate Flora Macdonald College, Peace College and Presbyterian Junior College into one educational corporation which would establish a co-educational four-year liberal arts college in eastern North Carolina. This decision was reaffirmed in 1956 and again in 1957. The Boards of Trustees of the three institutions were ordered to effect the consolidation; and accordingly the three Boards of Trustees acted to authorize their respective officials to sign the agreement of consolidation in behalf of the three uniting schools. This was done and the official agreement of consolidation was filed May 28, 1958 with the Secretary of State in Raleigh as the Charter of the Consolidated Presbyterian College.

Since Flora Macdonald, Peace and Presbyterian Junior College ceased to exist as separate corporate entities as soon as the Charter of Consolidated Presbyterian College was filed, it became necessary to provide oversight of the present educational activities in Raleigh, Red Springs and Maxton until the new consolidated college is opened at Laurinburg. Therefore the Board of Directors of the Consolidated Presbyterian College appointed the former trustees of the three colleges as managers of the affairs of the college in its three present locations. These managers are authorized to supervise the operations at Red Springs, Raleigh and Maxton under the control of the Board of Directors of the Consolidated Presbyterian College.

Students entering any one of the three divisions—Flora Macdonald, Peace, Presbyterian Junior College—of the college are assured of the right to pursue the course of study set out in the catalogue under which they entered. They are further assured of the right to graduate under the terms set forth in the catalogue of their matriculation. Students entering prior to the actual physical merger of all operations at Laurinburg may do so in the confidence that the Board of Directors will safeguard their rights and welfare.

FORM OF BEQUEST

I hereby devise and bequeath to Flora Macdonald
College, located at Red Springs, North Carolina, and
its successors

to be applied to the uses and purposes of said Col-
lege, and under the direction of the Board of Trus-
tees.
